

PTAB Meeting Minutes: February 12, 2025

Present: Colleen O'Neill (virtual), Stacy Allott, Stephen Langdon, Doug Haney, Ashley Garwood, Jimmy Cunningham, Julianne Stemp, Ezra Schwartzberg, Katrina Glynn (Village Employee), Aurora White (Village Trustee), Felix Langdon (Public Attendee)

1. Approve January Meeting Minutes: Motion by Stephen Langdon, Second by Jimmy Cunningham
2. Updates:
 - Sidewalk Assessment: Ezra still compiling data, will report at next meeting.
 - Boothe River Park: Met on 1/21 about fundraising. Not using Village funds. Ideally CFA, LWRP grant, ROOST funds, or others. New York Swim Public Beaches Grant might be an option. Katrina reached out to a consultant for cost estimate for writing grants for the project. FERC licensing also is an impediment to construction starting. Easements are going to be an issue; many will be needed. Current State funds can't be used for acquiring easements. Katrina will check the public session survey results and share with PTAB.
 - Ward Plumadore Park: Village's insurance is saying it's OK to cover the fire tower. CEF committee is mixed on the height (35 vs. 45 feet). A rendering of a different heights was sent by Kirk Sullivan and will be shared with PTAB. Will height limit usage greatly? Not using taxpayer money. Looking into LEAF grant, CFA Grant, Franklin County Bed Tax Grant. Find out if approved in Summer. Safety add-ons available (screens, non-skid stairs, safety rail). No night access. APA sent letters to residents within a certain distance from proposed fire tower. Public feedback from APA letters to be shared with PTAB. ADE got a letter and that's what triggered their article. Mountainscape still planned also with grant money, not CEF/Village budget. Conversation about the pros and cons of the location and the potential liabilities and all of the opportunities that may surround this project. Shade trees would be a huge benefit in the park.
 - Garwood Park: Pickleball and basketball courts will stay. Playground equipment is the focus. Surveys were manual and confusing for non tech people can we go back to online survey? Katrina to look into it and providing PTAB with public feedback from info session and surveys. Ashley said that there was positive feedback from the Village Board. Accessibility for young children has been a priority. Reminder from Katrina this is conceptual design, not schematic design.
 - Baldwin Park: Subcommittee PTAB volunteers are Ezra Schwartzberg and Stacy Allott. Committee will meet with design consultant late February. The 'change order' for the consultant has not been signed. Timeline is probably do demo this fall and get ready to do construction in Summer 2026. Discussion about the pros and cons and design constraints. Cross walks are important, but so far DOT not agreed. Resident reported private property owners next door using the park to park private vehicles for a few months; truck plowed a wide section. Reported to Village and Village Manager contacted private property owners via email.
3. New Business:
