

PTAB Meeting Minutes: October 15, 2025

Present: Colleen O'Neill, Stacey Allott, Julianne Stemp, Ezra Schwartzberg, Mary Thill, Jimmy Cunningham, Aurora White (Village Trustee)

Meeting called to order by Chair at 6:07 p.m.

1. **Approve September Meeting Minutes:** Motion by Ezra Schwartzberg, Second by Mary Thill. One typo to be corrected in a last name and Colleen to send revised version to Village.
2. **New Business:**
 1. **PTAB Officer Voting:** One year terms until 9/30/26. Ezra's PTAB term ends on 12/31/25 and he will leave PTAB; there will be a vacant PTAB Member and Vice Chair Officer position. Doug Haney was voted for the Vice Chair role but is not in attendance. Vice Chair to be confirmed. If not accepted, revote. PTAB voted to extend Colleen O'Neill's term as Chairperson. PTAB voted Julianne Stemp as Secretary. Colleen to communicate officer results to Village for a Village Board vote. Colleen to ask Village to put out public announcement for a new PTAB Member.
3. **Unfinished Business:**
 - **CEF Budget Allocation:** We have \$2509.83 remaining to be used by May; it does not roll over. Decision to not spend on a large item but instead see what comes up. To date we've had Community Bike Ride program signage and shirts (\$573.50) and tonight PTAB voted on an ACAB collaboration on moose mural at Berkeley Green bathroom (\$250). When Village budget was passed this FY PTAB was allotted \$1000 towards 1-2 new fire chimneys to be purchased and installed in Village parks. Colleen to check with Village if they were purchased. Colleen to create a list of ideas that PTAB proposed to use the CEF budget for and we will revisit it in coming months, some included replacing failing Ash trees in Riverfront Park, replacing tree and grate destroyed by car on Main Street; Colleen to check with DAB if that is already planned.
 - **Initiative and Park Updates**
 - **Baldwin:** The Village Board recommitted to design of Baldwin Park that includes an accessible canoe/kayak launch; working through APA feedback and consultant plans.
 - **Boothe River:** Met with various official partners regarding FERC relicensing, application submitted. Approval to take two years. Fishing access remains a priority. Some river access points in original plan removed to protect sensitive aquatic habitat. Plans for APA office at 1-3 Main St. will not encroach on park plans.
 - **Garwood:** Still waiting for word on the NYSOPRHP grant application.
 - **Lake Colby Beach:** Anecdotal feedback from lifeguards is that the accessible ramp did not get used. It's a very recent addition and needs more marketing and outreach. Village board is applying for a NY Swims grant for funding toward a new building and accessibility

improvements. Julianne will look more into use of the beach by people with disabilities and connect with local accessibility orgs.

- **Mt. Pisgah:** Smart Growth grant application pending.
- **Recycling in Parks:** Need to revisit recycling topic with Village to get a response. Colleen and Aurora will follow up.
- **Prescott and Riverfront:** Carried over to CIP since it was on Park Vision Plan but no plans to activate projects yet.
- **Rail Trail:** Resolution brought to Village Board on 10/14 for awareness and support for temporary wayfinding signage that would mirror what Lake Placid and Tupper Lake are doing, per ARTA and DEC. ROOST to design signs at no cost. General approval with a small design question; village manager will look into pricing. PTAB will now work on details for signage locations, featured destinations and distances, and collaborate with Downtown Advisory Board and John Dixon.
- **Riverside Park:** Waiting for LEAF grant. If received, consultant to revise park concept plan.

4. Discussion:

- **Park Vision Plan:** Colleen asked all members to familiarize themselves with the Park Vision Plan and use that to guide them in upcoming projects.
- **Capital Improvement Plan (CIP):** Aurora White reported the Village has not yet voted on CIP. It is intended to help the village prioritize long term projects and is based on Park Vision Plan.
- **Lake Flower Avenue Improvement Plan:** Consultants presented to the Village Board on 10/14 for Lake Flower Avenue improvements. Trustee White will share with PTAB plans for Lake Flower Avenue crosswalks and other improvements.

5. Adjourn at 7:30 p.m.
